We are dedicated to capturing the spirit, emotion, and unique character of your event whether it's a wedding, portrait, birthday, family or corporate photo shoot. We pay special attention to every moment and provide those unexpected photographs that make your event so personal.

Gary W. Oben

Gary has had an interest in photography starting in his teens. Gary started taking pictures photographing homes and architectural images for his construction business. Large format film cameras were used to produce 4 color negatives for printing of brochures. Gary soon branched out his skills photographing events, football games, air shows, landscapes and other events. His love for aviation (private pilot) music (guitar player, private tutor,), architecture (designer) and computers got his creative juices going. Moving into the digital world Gary developed his photography and computer skills utilizing the latest software available to re-touch images (Photoshop and Photoshop Lightroom) to create brochures, posters and web design. Keeping up with the latest computers and software is Gary's passion.
