

Wedding Photography

“Great photography can be an incredibly powerful memento, one you will have long afterwards.”

An overview of our services is as follows. Explore our website gallery for other examples and information. At our initial photography consultation, we will review your event and select which poses and settings you want to capture before your ceremony, at the ceremony, before the reception and at the reception or if you have special guests that you want the photographer to include.

This photography will start 30 minutes before the ceremony with the photographer taking pictures of the bride and groom arriving for the big day. The photographer will then capture your wedding ceremony. After the ceremony, the photographer will photograph the wedding party in the church, beach or wedding hall. The guest may take pictures after the photographer is finished with the bride and groom and members of the wedding party. The balance of the photographer's time will be at the reception choreographing the pre-selected photographs.

Many years of experience has helped us to prepare our wedding coverage to fit the needs of our clients, as we have learned that there are varying types of weddings that need a wide range of coverage as well as price. We hope that we are able to talk to all of our clients and feel that we have given them what they need in wedding coverage, and filled the needs of the most important day of their lives. As there never seems to be the norm we are of course, willing to work with you on an individual basis.

This videography experience will be yours for \$1,000!

Shooting: The videographer will complete the shoot at the predetermined locations. Each shot and scene is expertly framed with a HD video camera.

Editing: The videographer will edit the raw video footage and insert other material like, photos and audio to incorporate everything into a succinct video.

Music: Music when needed can help drive a video and help communicate a tone or emotion. Our database of music includes any style and rhythm imaginable. And rest assured all of the music in our wedding videos is royalty free. The wedding couple can also provide a cd of songs to be incorporated into the video.

Post Production: After the first rough cut of the video footage a meeting will be arranged to review the video (optional). The insert of images, music, titles, DVD labels, DVD processing, file formats and video effects will be discussed and agreed on. This meeting will be scheduled three weeks after the event. The final video editing and the burning of DVD's will follow.

Payment: The required reservation deposit is 50% of the video package amount. One week before the wedding a 30% payment is required. The balance of the video amount is due at completion of the event shoot. Payments can be made online. Discounts will apply to online payments only. Visit our website www.gwoproductions.com for details.
